Antonio found where the last guys didn't see a hole in the taped seam, it was an air leak. Not anymore, thank you Antonio!
Today I just had regular maintenance. Everything is good. Thank you BHA and Antonio!

We live in New Jersey. Came down to Florida to take care of my husbands's parents home (that had been vacant for a while) to find the A/C not working. Called "Breathe Healthier Air". Not only did they show up right away, they diagnosed the problem, ordered the part and came back right away to install it. All the work was done by a very professional, competent and very pleasant technician - Lewis.
Will absolutely recommend this company to everybody!

The young man Antonio was a superb worker. He serviced the unit with much care, patience and a true professional effort in checking the condition of the A. C. The communication between the service department and the customer is first class, leaving nothing to chance. The workers who answer the phones are knowledgeable, polite and always treat you with kindness.
